

DORANS
KITCHEN & HOME

At Doran's, we recognise that a kitchen is far more than a functional space—it's the heart of the home, a centre for culinary creativity, and a gathering place for family moments.

With over 40 years of dedicated experience in craftsmanship, architectural expertise, and innovative interior design, we ensure that every project seamlessly blends tradition and trend.

KITCHEN

At Doran's, bespoke means no compromises. Every kitchen is thoughtfully designed, precision-built, and tailored to your space, ensuring that form and function exist in perfect harmony. From carefully sourced materials to expert craftsmanship, each detail is considered. Working in tandem, we'll create a timeless, high-quality kitchen that is uniquely yours and built to last.

HOME

A well-designed home flows effortlessly from one space to another, creating a sense of cohesion. An interconnected approach ensures that each room complements the next. Through thoughtful planning, we create homes where kitchens, dining, and living areas have their unique flair yet seamlessly blend, enhancing not just the architecture of the room but the way you live in it.

INTERIORS

True interior design goes beyond aesthetics—it refines purpose, invites interaction and manifests an atmosphere. We elevate the fundamentals by combining proportion, colour, and texture with premium materials. Whether you need guidance on a single room or the entire house, our meticulous designers craft fully tailored interior schemes, thoughtfully curated for family moments, work, and play.

TIMELINE

Get to know our process

Get in Touch

Speak to our team about your preferred styles, timeframes, and initial budget. Follow up with plans, measurements, and inspiration images.

Initial Consultation

After gathering relevant information about your project, we'll arrange a 60-90-minute initial consultation at our showroom.

Presentation

Once a brief is created, we'll proceed to full design. We'll present true-to-life renders and discuss specifications, options, and pricing in detail.

Finalising

You will join us for a final meeting at our showroom to review specifications and options in detail, ensuring you know exactly what you're getting.

Site Survey

We'll conduct an initial survey to map out the space and a follow-up survey closer to the time to liaise with tradespeople and/or at first fix.

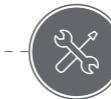

Committing

After signing off on the concept package, a 5% deposit is required to release all design work. You will still be able to make amendments.

Final Signoff

When you're satisfied with the finalised designs, specs and quotation – we will require a 50% deposit for your project to proceed to manufacturing.

Manufacturing

All working drawings will be passed to the manufacturing team to create your dream space. The Project Manager will outline the lead time (approx. 10-14 weeks).

Installation

We'll contact you closer to the installation window to set a date. Our expert fitters will handle everything, worktops will be templated and arrive in approx. 7-10 days.
